Projects

- *"DegreePlanner" Project* (Spring 2024)
    - Project meant to streamline, improve, and recreate a degree-planning software used by the University of South Carolina.
    - Back-end implementation using Java, storing/pulling data such as User Information (students, advisors, etc.) and Course Information (course name, description, etc.) from JSON files.
    - GitHub Repository: https://github.com/king-benjamin-a/DegreePlanner

Other Related Experience

- *Crabtree's New York & Main, Huntington, NY*. (March 2022- Current)
    - Waiter, Barback, Busboy.
    - Constantly juggling many different important tasks at once – taking orders for new customers, checking on my drink and food orders, updating my internal clock when guests are approaching their second course – I must stay on top of my responsibilities, otherwise my paycheck reflects this.
    - This has helped my ability to adapt to adverse situations – subconsciously I am now better at catching errors in my code and finding ways to fix these bugs.
    - This experience juggling responsibilities and roles has allowed me to maximize efficiency on coding projects and other courses' work.

Skills

- *Java*
    - Advanced - most of my scholastic work and projects have been with Java.
- *C++/Linux/Python/JSON/MIPS Assembly*
    - Intermediate understanding - I have worked on a handful of projects in each of these languages, less confident than Java.

Leadership Roles

- *Club Rugby Social Media Committee Member* (2023-Current)
    - Took lead in changing the layout of UofSC's Club Rugby team's social media presence.
- *Club Rugby Recruiting Committee Member* (2023-Current)
    - Active and influential member of the Social-Media and Recruiting committees.
- *Leadership Committee Member* (Sept. 2021-May 2022)
    - I was in charge of planning popular fundraising events such as "Homecoming".
